

OVERVIEW

Kode 10 is a hydrophobic clear topcoat designed for organic-mineral renders such as Terracoat and Terralite finishes. Kode 10 is a film forming coating and has excellent durability and due to its excellent hydrophobicity, prevents the ingress of water-bourne contaminants which cause discolouration and limit the life of such renders. Kode 10 is based on a novel fluoro-acrylic polymer which ensures excellent dirt pick-up resistance without any of the side effects of conventional hydrophobic treatments.

PROPERTIES

Kode 10 has the following properties:

- Easy application
- Excellent hydrophobic effect
- Excellent durability
- Enhanced dirt pick-up resistance
- Non-yellowing topcoat

AREAS OF USE

Kode 10 is primarily designed as a final coating over Terracoat Textured Coatings on Terraco EIFS and surfaces of buildings such as industrial complexes, office projects, factories, hospitals and housing developments, particularly in locations adjacent to busy thoroughfares and where there is a large amount of dust and dirt in the atmosphere.

PREPARATION OF SURFACE

Ensure that all dust, dirt and foreign matter are brushed and scraped away. Also ensure the surfaces are free from salts, oil, grease and ridges, and protect all adjacent surfaces not to be covered.

All cracks, chips, voids and damages should be repaired with appropriate filler.

APPLICATION & CLEANING OF TOOLS

The Terracoat Textured Coating should be allowed to dry for 24 hours before applying Kode 10. Stir well before use. Application is by brush, roller or spray in 2 coats.

Clean tools and equipment with water after use.

HEALTH & SAFETY

Avoid prolonged contact with eyes and skin. For detailed information refer to relevant material safety data sheet.

PACKAGING & STORAGE

Kode 10 is supplied in 5kg and 20kg plastic pails.

Store containers in a clean dry area protected from direct sunlight and extreme heat and cold. Unopened containers can be stored for 12 months. Use oldest material first.

TERRACO offers a comprehensive range of products and services for most concrete and finishing needs. Please contact the TERRACO Technical Service Department or your local TERRACO agent for further information, samples, demonstrations and instructor services. The information given in this leaflet is based upon laboratory research, as well as extensive field work and application. All products are sold subject to standard conditions of sale which are available on request. This information is based on TERRACO's present state of knowledge and is intended to provide general information on TERRACO's products and their methods of use. The prospective user is recommended to determine the suitability of TERRACO's suggestions and products before adopting them on a commercial scale.

TECHNICAL DATA

Product	Hydrophobic topcoat for Acrylic renders.
Binder	Flouro-acrylic.
Drying Time	3-4 hours.
Toxicity	Non-toxic.
Specific Gravity	1.02
Coverage kg/m²	0.15-0.20 kg/m ² depending on texture and surface conditions (2 coats)
Application method	Brush, roller or spray.
Packaging	5kg and 20kg plastic pails.
Storage	12 months in original unopened containers.
