Designer Collection

The House of Scandinavian Finishing Materials

A photograph of a grand, ornate hallway with high ceilings, arched doorways, and a checkered tile floor. A large, decorative chandelier hangs from the ceiling. The walls are covered in decorative finishes.

Designer Collection

Luxurious, versatile and striking interior decorative wall finishes

The Terraco Designer Collection is a novel and attractive range of high-end decorative finishes created specifically to assist interior designers to bring their visions to life and is limited only by one's imagination and creativity.

While each decorative interior wall coating has its own particular formulation and benefits, every product in the Designer Collection has its own unmistakable appearance, inspired by several generations of architects and designers who turn to Terraco products for inspiration, innovation and creativity.

Most of these products are specially formulated without the use of solvents, formaldehyde and other harmful chemicals and are part of the Terraco **ECO^{LIFE}** product group. Using the latest, advanced Green technology, the Terraco EcoLife branded products are a range of ultra low Volatile Organic Compounds (VOC) products. The EcoLife range of products surpasses the most stringent international regulations pertaining to interior decoration products with VOC levels of less than 5g/l.

Developed for the connoisseur, these products include highly decorative polished plasters as well as attractive antique style finishes, fresco effects, marble-like textures and texturing compounds. Terraco's Designer Collection is suitable for a wide range of applications including hotels, high-end residences, commercial centres, retail shops, restaurants and more.

Terraco's Designer Collection has been developed with ease of use in mind - without compromising on the finish!

Antique Stucco

VENETIAN POLISHED PLASTER

An acrylic based Venetian stucco suitable for use on most interior surfaces which can be applied to create traditional and modern effects by adjusting the application method. Applied by trowel, spatula, or spackle. Approx. 0.6-0.8 kg/m² for light texture.

Fresco

TRANSLUCENT COLOUR WASH

A versatile translucent colour wash used for transforming the plainest wall into attractive warm finishes with varying degrees of depth. Applied by using a sponge in a circular motion, a lint free dabbing cloth, soft bristle brush or a low pile roller. Approx. 0.15-0.20 kg/m².

Handy Plus

PEARLESCENT GLAZE TOPCOAT

A translucent glaze coat applied over existing coatings which gives the wall an attractive pearlescent lustre. It is often used with other decorative effects such as Handytex and Terraver-tine. Applied by rag, brush or roller. Approx. 0.15-0.20 kg/m².

Handytex

INTERIOR TEXTURING COMPOUND

An acrylic based texturing compound for use on all types of interior ceilings and walls, applied in a wide range of textures and finishes, which can be overcoated with products such as Handyplus and Fresco. Applied by brush or roller and then textured. Approx. 1.0-2.0 kg/m².

MarbleCoat

MARBLE EFFECT COATING

An acrylic based highly polished marble effect coating used to mimic real marble. Commonly applied to interior walls and columns, and being moisture resistant can also be used in bathrooms. Applied by fine blade spatula. Approx. 0.4-1.2 kg/m² depending on effect.

TRADITIONAL VENETIAN STUCCO

A ready mixed Venetian stucco incorporating natural limes and crushed marble to produce a seamless decorative marble membrane of exceptional beauty and versatility. Applied by trowel or spatula. Approx. 1.0-2.0 kg/m².

Sardinia Brush

SANDY TEXTURED COATING

A matt acrylic based coating giving a contemporary sandy texture finish which can be applied either vertically, horizontally or cross-hatched. Applied by roller, and while still wet, pattern by dragging a long-haired brush to create a dragged finish. Approx. 0.6-0.8 kg/m².

Suede

SEAMLESS STRESSED COATING

A high build smooth acrylic based coating used to create a seamless suede pattern on the surface with excellent resistance to staining and scratching. Applied by trowel. Approx. 1.5-2.0 kg/m².

TERRAVERTINE

NATURAL POLISHED PLASTER

A lime based natural plaster designed to create dramatic and elegant finishes either as a smooth or textured polished surface, or as a combination of both. Applied by trowel. Base coat approx. 1.5 kg/m²/mm. Finishing coat approx. 1.5-2.0 kg/m².

VELVETEX

VELVET PEARLESCENT COATING

An antique velvet effect coating used to create luxurious warm interior walls of distinctive style by means of a three dimensional surface. Applied by spatula, roller, brush or spray. Approx. 0.15-0.20 kg/m².
